

# M-PACT® FR KNIT CR5A5

**CR5A5**  
NEW ANSI CUT

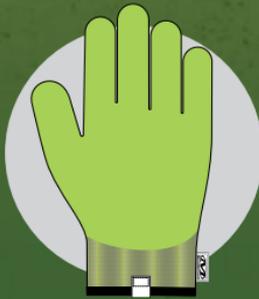

## FLAME-RESISTANT IMPACT PROTECTION

M-Pact® Flame-Resistant Knit CR5A5 gloves protect hands working with energized equipment in environments where the risk of fire, arc flash, and cut hazards are present. Comfortable 10-gauge machine knit shell conforms to your hands with anatomically designed flame-resistant TPR to protect your knuckles, metacarpals and fingers from common impact and pinching injuries. M-Pact FR Knit gloves are constructed with a blend of aramid fibers to protect hands with EN 407 Level 4 Thermal Resistance and Level 2 arc flash. The palm side is double dipped in sandy nitrile with D30® padding encased to help dissipate impact and vibration when you're in full swing.

### IMPACT PROTECTION

Full-coverage flame-resistant TPR impact protection.

### FLAME RESISTANCE

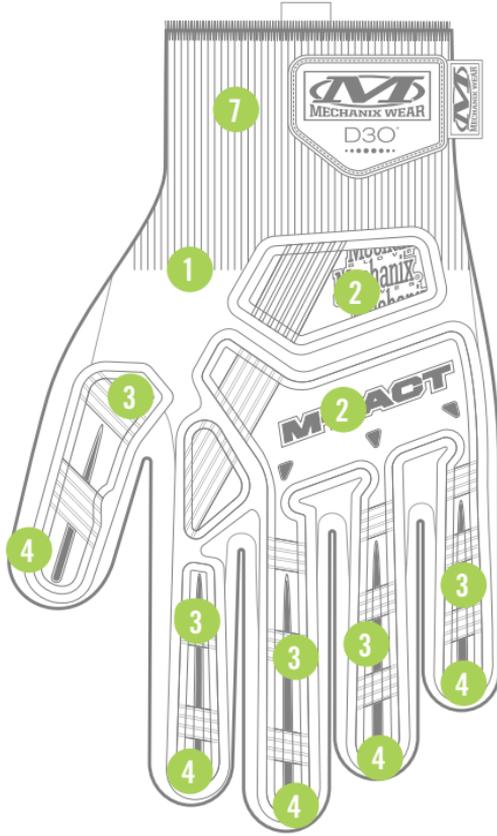

10-gauge aramid fiber blend protects hands with EN 407 Level 4 Thermal Resistance.
